

2022 SMALL AND LARGE PROJECTS PROGRAM AWARDS GUIDELINES

PURPOSE AND SCOPE OF PROGRAM AWARDS

The Silos & Smokestacks National Heritage Area (SSNHA) was designated by Congress in 1996 in recognition of northeast Iowa's nationally significant resources and heritage related to American agriculture. Within the 37-county area, much of the heritage of America's agricultural revolution still exists and is in need of preservation and interpretation. Iowans and visitors desire opportunities to learn about the farms, the industries, and the people who strive to maintain a safe and wholesome food supply.

SSNHA's Partnership Management Plan calls to preserve and tell the story of American agriculture and its global significance through partnerships and activities that celebrate the land, people, and communities. The agricultural stories of the area are being explored through interpretation of six themes:

- The Fertile Land;
- Farmers and Families;
- The Changing Farm;
- Higher Yields: The Science and Technology of Agriculture;
- Farm to Factory: Agribusiness in Iowa; and
- Organizing for Agriculture: Policies and Politics.

Each theme embodies different features of the area's heritage. Taken together the themes allow visitors to interpret and experience the story in many ways: in small towns and larger cities; along trails and country roads; and on farms, natural areas, local museums and historical buildings.

To help accomplish the goals and objectives of the Management Plan, Silos & Smokestacks, a 501(c) 3 nonprofit, offers matching program awards to provide and leverage funding for new projects across the region that preserve, interpret, and develop heritage resources within these thematic areas and expand visitor experience opportunities, elevating the quality of the heritage area individually and collectively.

Funds for the SSNHA's program awards are federal dollars provided by federal appropriations and administered through a cooperative agreement with the National Park Service.
